BERNIO R 35Q NEMA 17, NEMA 23 GEARBOX

NEMA frame motor interface

R 35Q NEMA 17 / 23 256:1
planetary gearbox only 256:1, 11.7 rpm at 3000 rpm input, 15 Nm peak

- Use with NEMA 17 or NEMA 23 motors for greater flexibility
- Increase output torque in a compact footprint
- Up to 5,000 rpm input; 3,000 rpm advised
- Peak torque up to 28 Nm
- Zinc-plated frame with screened output bearings

PRODUCT DESCRIPTION

Bernio NEMA Gearboxes
A versatile range of compact planetary and worm gearboxes designed for integration with NEMA frame motors. Robust construction and a choice of gearbox sizes provide a practical solution for industrial automation applications requiring reliable speed reduction and torque transmission.
