SLEEVED CABLE TIED CABLE MARKERS

KSH, KKM

2383.0
KSH 6/33 Cable marker ferrule

- Quick assembly
- Plottable inserts
- Self adhesive options

PRODUCT DESCRIPTION

The KSH cable marker sleeves, used in combination with the ESS Maxicard and GS marker inserts allow cables to be labelled quickly and conveniently.

The KSH is simply attached to the cable using cable ties. This makes them particularly suitable for cables, pipes or hoses with large cross-sections. When used together, the Maxicard and the KSH cable marker sleeves ensure that your labels are protected from environment.

Available in three different sizes.

Material: Soft PVC, no cadmium or silicone – Resistant to Oils, benzene, gamma and UV radiation.

The KKM cable markers are mainly used indoors. They are attached to the cable using cable ties. They can be labelled with GKE self-adhesive labels or MC GST Maxicards.

They are available in two sizes.

Material: Polypropylene/nylon 6.6, transparent, halogen-free and silicone-free.

TECHNICAL DATA

Additional information	for MC ESS 18/64
