DRAW-WIRE ENCODER SERIES B75

D8.15

- Maximum linearity ±0,35%
- Working temperature -40°C to +85°C
- Protection level IP65
- Mechanical speed 0,8 m/s

PRODUCT DESCRIPTION

The B75 draw-wire encoder can be used up to a measuring length of 3 meters.
These draw-wire mechanics may be combined with the proven Kübler Sendix encoders with incremental or absolute interface, as well as with analog sensors, which are also available in redundant version.
