PRODUCT DESCRIPTION

Conta-Clip offer a range of standard automotive type insulated joining/butt crimp terminals to suit many applications.

These terminals are usually identified by the coloured collars for the various cable sizes.

The standard range covers from 0.5mm² to 6mm² cable sizes.

All types within the range have a widened cable entry, making for an easy installation.

The HS versions have a double layer of insulation and combined adhesive heat shrink to give a waterproof joint for the harshest applications.
