MZ9G5B	Square gearbox 3S, 60-90W, 90MM, 5:1	1	£74.60

- **In Case of 3-Phase 200 V**

In wiring to power supply (outside of equipment) from MCCB, use an electric wire of 1.6 mm diameter (2.0 mm^2) or more both for main circuit and grounding. Apply grounding class D (100 Ω or below) for grounding. Do not tighten the ground wires together, but connect them individually.
