

## GBAT CYLINDRICAL FUSE LINKS

405043-DF

Cylindrical fuses 22x58 gbat 63A 600 VDC for battery storage protection

- Available in 14x51 and 22x58 sizes
- Rated current between 2A to 80A
- Rated voltage of 600V DC
- Ideal for battery protection

### PRODUCT DESCRIPTION

gBat Cylindrical fuse links, compliant with the IEC60269-7 Standard, are designed to safeguard battery systems. These fuse links offer comprehensive protection by quickly clearing overcurrents, overloads, and short-circuits, ensuring the safety of batteries, cables, and all associated switchgear installations.

gBat fuse links exhibit rapid operation during short-circuits and maintain reliable performance through continuous charge/discharge cycles. The design optimisation results in reduced power dissipations, enabling their versatile use across a broad spectrum of fuse bases, disconnectors, and fuse-switch disconnectors.

The gBat Cylindrical fuse links range is available in 14x51 and 22x58 sizes and include rated currents from 2A to 80A, and a rated voltage of 600V DC. These fuse links come in standard versions and striker versions and are compatible with fuse bases featuring microswitches.

## TECHNICAL DATA

### GENERAL DATA

|                   |           |
|-------------------|-----------|
| Type              | gBat      |
| Size              | 22x58     |
| Rated current     | 63 A      |
| Voltage dc max    | 600 V     |
| Breaking capacity | 50 kA     |
| Frequency         | 42...62Hz |
| Indicator         | No        |

### ADDITIONAL DATA
