

## NA5PLUS, NA6PLUS

Universal input digital panel meter with multicolour bargraphs.

NA5PLUSTGU00200E0  
 DIGITAL BARGRAPH METER 3 COLOUR GREEN 95-253VAC/DC

- Universal input (programmable)
- Wide voltage, AC/DC control
- Digital and digital bargraph multicolour display

### PRODUCT DESCRIPTION

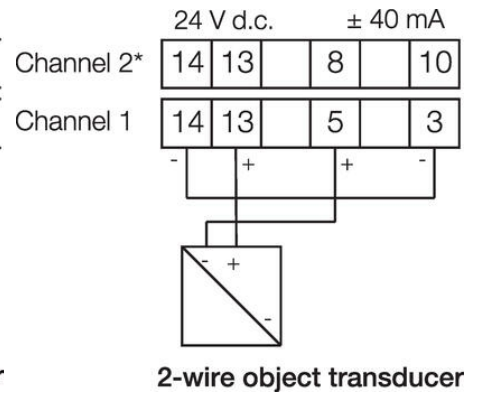

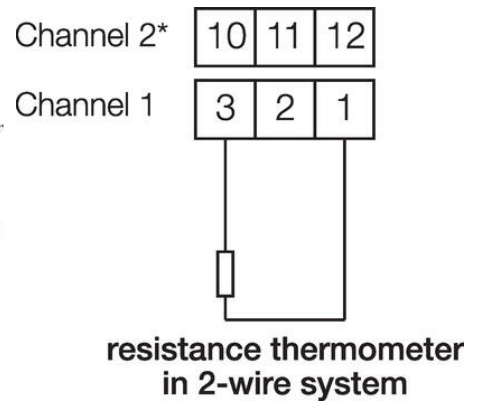

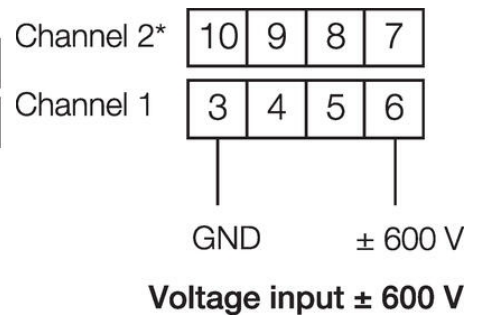

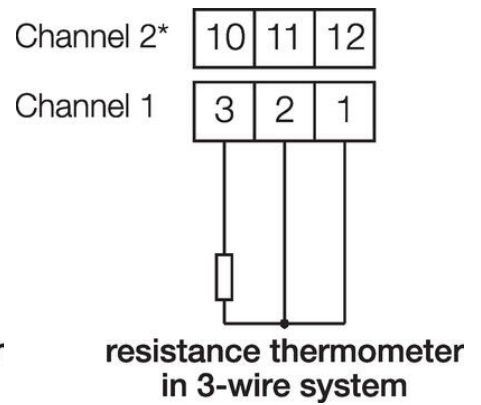

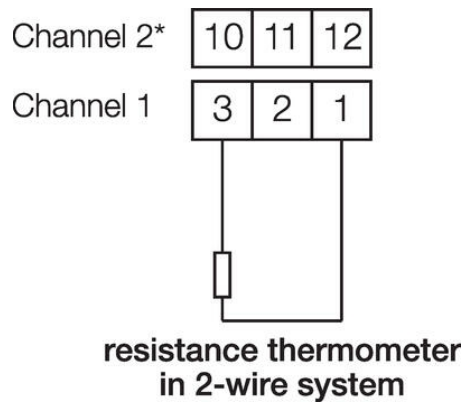

Meters with bargraph are devices ensuring both a high measurement accuracy and very well visualization of the measuring process courses. Very well visualization of the process is possible through using in meters 3 and 7-coloured bargraph built with diodes made in the gallium nitride technology. They can find application in various industrial fields, e.g. food industry, pumping stations and sewage-treatment plants, chemical industry, weather stations, brewing industry and many other fields where they are destined for visualisation of the measured value and evaluation of the monitored manufacturing process change trend. They can also find application in automation systems where programmable controllers are applied.
