

## SAMOA 1" PNEUMATIC DIAPHRAGM PUMP

Metallic / Non-Metallic

UP10B-TBS-PMA  
UP10, AODD Pump, 1", Polypropylene, Santoprene,  
200 LPM, ATEX

- Pump Size 1"
- Connection Types - BSP/NPT, Side/Center/Multiple Ports, ANSI/DIN Center/Side Flange
- Max. Flow Rate 130-200 LPM
- Operating Pressure 1.5 - 7 / 1.5 - 8 bar

### PRODUCT DESCRIPTION

### TECHNICAL DATA

|                                                 |                          |
|-------------------------------------------------|--------------------------|
| Approvals                                       | UKCA, CE                 |
| Country of origin                               | Spain                    |
| Diaphragm Type                                  | Convoluted               |
| Fluid Displacement Per Cycle                    | 0.85 litres              |
| Fluid Port Connection Type                      | NPT Side Ports           |
| Material Air Section (Central Body & Air cover) | Conductive Polypropylene |
| Material Of Diaphragm                           | Santoprene               |
| Material of valve ball                          | Santoprene               |
| Material of valve seats                         | Polypropylene            |
| Material of wetted parts                        | Conductive Polypropylene |
| Max suction lift - Dry                          | 5 m                      |
| Max suction lift - Wet                          | 8 m                      |
| Max. Flow Rate                                  | 200 LPM                  |
| Max. Size Of Suspended Solids                   | 6.4 mm                   |
| Net Dimensions                                  | 399mm x 243mm x 386mm    |
| Net Weight                                      | 11.6 kg                  |
| Operating Pressure                              | 1.5 - 7 bar              |
| Pump size                                       | 1"                       |
| Pump type                                       | Non-Metallic             |
