# THK - SHW RAIL AND BLOCKS

SHW 17CAM

- High speed
- High loads in all directions
- Features caged ball technology

**PRODUCT DESCRIPTION**

The SHW range is very stable thanks to its width and low center of gravity and is ideal as a single rail with high loading.

Because SHW takes force in all directions, it has a very wide range of applications. The blocks also feature THKs caged ball technology

# TECHNICAL DATA

| | |
|---|---|
