

## THK - SHW RAIL AND BLOCKS

SHW 27CA

- High speed
- High loads in all directions
- Features caged ball technology

### PRODUCT DESCRIPTION

The SHW range is very stable thanks to its width and low center of gravity and is ideal as a single rail with high loading.

Because SHW takes force in all directions, it has a very wide range of applications. The blocks also feature THKs caged ball technology

### TECHNICAL DATA

Dynamic load	16 kN
Height	27 mm
Length	72.8 mm
Static load	22.7 kN
Width	80 mm
