THK - SHW RAIL AND BLOCKS

SHW 50CA

- High speed
- High loads in all directions
- Features caged ball technology

PRODUCT DESCRIPTION

The SHW range is very stable thanks to its width and low center of gravity and is ideal as a single rail with high loading.

Because SHW takes force in all directions, it has a very wide range of applications. The blocks also feature THKs caged ball technology

TECHNICAL DATA

Dynamic load	70.2 kN
Height	50 mm
Length	141 mm
Static load	91.4 kN
Width	162 mm
