THK - SHW RAIL AND BLOCKS

SHW 21CR

- High speed
- High loads in all directions
- Features caged ball technology

PRODUCT DESCRIPTION

The SHW range is very stable thanks to its width and low center of gravity and is ideal as a single rail with high loading.

Because SHW takes force in all directions, it has a very wide range of applications. The blocks also feature THKs caged ball technology

TECHNICAL DATA

Dynamic load	8.24 kN
Height	21 mm
Length	59 mm
Static load	12.8 kN
Width	54 mm
