

NAFSA - CU20 CPB SERIES

CU20/CPB

- Bistable security locking bolt
- Class Y winding (90°C)
- Held in either position
- Up to 2000N radial load
- Customer specific version available

PRODUCT DESCRIPTION

Bistable locking bolt with the same force in push or pull operation.

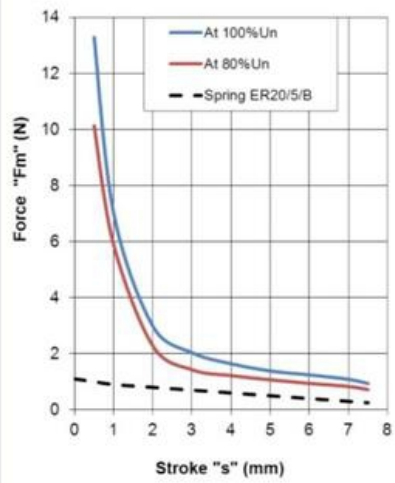

Held either by coil and magnet or spring and features an anti rotation system with mounting options for front, rear or lateral fixing.

Also features reinforcement for high radial loadings.

TECHNICAL DATA

Duty cycle	25 %
Insulation class	Y(90°C)
IP class	IP40
Plunger weight	19 g
Power	20 W
Spring return	Yes
Stroke	7.5 mm
Total weight	90 g
Voltage dc max	48 V
Voltage dc min	3 V

Force-stroke curve

Solenoid shown without voltage
