### PRODUCT DESCRIPTION

The SCR3-15 Mini Slides from Sugatsune are precision-engineered, full-extension drawer slides designed for compact applications requiring smooth and reliable linear motion. Measuring just 15.5 mm in height with a slim 9.7 mm width, these slides feature a three-member design that allows for full extension, maximising accessibility in tight spaces. Constructed from durable stainless steel (SUS304), they offer excellent corrosion resistance, making them suitable for environments where hygiene and durability are paramount. The slides are available in various lengths and load capacities ranging from 10 kgf to 12 kgf per pair, depending on the model.

These mini slides are ideal for a wide range of applications, including furniture, architectural installations, and marine hardware, where space constraints and reliability are critical. Their compact size and robust construction make them suitable for use in small drawers, equipment compartments, and other confined spaces where traditional slides would be impractical. The SCR3-15 series' smooth operation and full-extension capability enhance functionality in various settings, providing designers and engineers with a versatile solution for precision movement in limited spaces.
