BERNIO R 30Q NEMA 17 GEARBOX

Standard NEMA 17 motor mounting

R 30Q NEMA 17 1024:1
planetary gearbox only 1024:1, 2.9 rpm at 3000 rpm input, 15 Nm peak

- Connect directly to standard NEMA 17 motors
- Increase output torque in a compact footprint
- Up to 5,000 rpm input; 3,000 rpm advised
- Peak torque up to 15 Nm
- Permanent lubrication and ball-bearing output support

PRODUCT DESCRIPTION

Bernio NEMA Gearboxes
A versatile range of compact planetary and worm gearboxes designed for integration with NEMA frame motors. Robust construction and a choice of gearbox sizes provide a practical solution for industrial automation applications requiring reliable speed reduction and torque transmission.
