BERNIO R 45 NEMA 23 GEARBOX

Direct standard-frame motor mounting

R 45 NEMA 23 6:1
planetary gearbox only 6:1, 500 rpm at 3000 rpm input,
8 Nm peak

- Connect directly to standard NEMA 23 motors
- Increase output torque in a compact footprint
- Up to 5,000 rpm input; 3,000 rpm advised
- Peak torque up to 50 Nm
- Permanent lubrication and ball-bearing output support

PRODUCT DESCRIPTION

Bernio NEMA Gearboxes

A versatile range of compact planetary and worm gearboxes designed for integration with NEMA frame motors. Robust construction and a choice of gearbox sizes provide a practical solution for industrial automation applications requiring reliable speed reduction and torque transmission.
