BERNIO R 63 NEMA 34 GEARBOX

Standard motor mounting interface

R 63 NEMA 34 16:1
planetary gearbox only 16:1, 187.5 rpm at 3000 rpm input, 80 Nm peak

- Connect directly to standard NEMA 34 motors
- Deliver higher torque without a bulky transmission
- Up to 4,000 rpm input; 3,000 rpm advised
- Peak torque up to 120 Nm
- Reduced-backlash options for precision applications

PRODUCT DESCRIPTION

Bernio NEMA Gearboxes

A versatile range of compact planetary and worm gearboxes designed for integration with NEMA frame motors. Robust construction and a choice of gearbox sizes provide a practical solution for industrial automation applications requiring reliable speed reduction and torque transmission.
