BERNIO R 80 NEMA 34 GEARBOX

Standard NEMA motor interface

R 80 NEMA 34 6:1
planetary gearbox only 6:1, 500 rpm at 3000 rpm input, 120 Nm peak

- Connect directly to standard NEMA 34 motors
- Deliver higher torque without a bulky transmission
- Up to 4,000 rpm input; 3,000 rpm advised
- Peak torque up to 150 Nm
- Galvanized frame with ball-bearing output support

PRODUCT DESCRIPTION

Bernio NEMA Gearboxes
A versatile range of compact planetary and worm gearboxes designed for integration with NEMA frame motors. Robust construction and a choice of gearbox sizes provide a practical solution for industrial automation applications requiring reliable speed reduction and torque transmission.
