

TAKEX - GA PHOTOELECTRIC SENSOR WITH TEACH IN

GAS05R-PNP

Photosensor diffuse 0,5m cable

- Teach In
- Detection of transparent objects (GAMT1R)
- Alarm output at uncertain signal
- IP67

PRODUCT DESCRIPTION

The GA series is a compact photoelectric sensor with Teach In function for easy setting. This is available as a direct reflecting, polarised reflector and for detection of transparent objects. It has an alarm output which emits a signal following a repeated uncertain signal level if, for example, the lens has been dirtied.
