FINGER HOOK AND DUST COVER

276001
Dust cover for 16x19mm cutout, 24mm collar, white

- For 90° lock
- Hole pattern 22.5 mm
- Polyamide, PA6
- IP65 requires an extra seal
- Fits lock with Ø28 / Ø32 mm collar

PRODUCT DESCRIPTION

The finger hook (black) and dust cover (black) are used in combination with the standard 90° lock. Suitable for locks with Ø 28 mm or 32 mm collar.

White dust cover is used for 90° lock with hole punch 19 x 16mm.
Note: Add 2mm to the H measurement to compensate for the thickness of the finger hook.

If an IP65 product is used with the finger hook or dust cover, separate flat gasket (297002) must be ordered and fitted to maintain IP65 rating.
