## ESI - PR3860 - HIGH TEMPERATURE SENSOR

PR3861C0060BA 0-5V, 0..60 bar, G1/2 flush, 1M cable IP67 621

- Thick film sensor technology for long service life
- Pressure ranges up to 400 bar
- Up to 250°C media temperature option
- Easy clean flush membrane to prevent clogging

## PRODUCT DESCRIPTION

The PR3860 high temperature pressure transmitter has been designed to meet the requirements of the majority of industrial pressure measurement applications where a hygienic flush diaphragm connection is required. Suitable for use at media temperature up to

250°C. Typical applications include food processing, pharmaceutical and petrochemical. The flush membrane can be easily cleaned for long term reliability and outstanding performance. The PR3860 offers a stable and accurate output signal of 4-20 mA with options for 0-5 Vdc, 0-10 Vdc, 0-20 mA and other output signals. Electrical connection is via a detachable DIN connector allowing easy access to zero and span adjustment. Pressure ranges available from 0-10 bar to 0-400 bar.

Optional weldable boss is available to ensure flush-face installation of transmitter to tanks and pipe-work.

An optional ATEX and IECEx approved version of this product is available for explosion protection for flammable gases (zone 0), dusts (zone 20) and mining areas (group I M1).

## **TECHNICAL DATA**

| Ambient temperature      | -2085°C                         |
|--------------------------|---------------------------------|
| Approvals                | CE, IEC                         |
| Electrical connection    | 1M Cable outlet screened (IP67) |
| EMC                      | EN61000-6-2, EN61000-6-4        |
| Linearity                | ≤±0.3% BSFL                     |
| Material of wetted parts | Stainless steel 316L            |
| Media temperature        | 0205°C                          |
| Output                   | 0-5V                            |
| Overpressure protection  | 90 bar                          |
| Pressure range max       | 60 bar                          |
|                          |                                 |

| Pressure range min  | 0 bar                 |
|---------------------|-----------------------|
| Pressure reference  | Gauge                 |
| Process connection  | G1/2" flush diaphragm |
| Sensor technology   | Ceramic thick film    |
| Storage temperature | 540°C                 |
| Supply voltage      | 13-30 V DC            |
