## ESI - PR3100 - INDUSTRIAL PRESSURE SENSOR

PR3100B02.5AC 4-20mA, 0..2,5 bar, G1/2, M12

- Suitable for the majority of industrial applications
- Reliable pressure measurement
- Long service life
- All stainless steel construction

## PRODUCT DESCRIPTION

The PR3100 is constructed from stainless steel which incorporates thick film, ceramic and bonded strain gauge technology. This offers excellent stability and accuracy over a long service life. On request this is also available in corrosion resistant materials. The available pressure range options are from 0-1Bar to 0-600Bar.

There are optional ATEX and IECEx approved versions of the PR3100 available for Explosion protection for flammable gases (zone0), dusts (zone 20) and mining areas (group I M1).

## **TECHNICAL DATA**

| Ambient temperature                        | -2085°C                                   |
|--|---|
| Electrical connection                      | M12                                       |
| EMC  | EN61000-6-4, EN61000-6-2                  |
| Linearity                                  | ≤±0.3% BSFL                               |
| Material of wetted parts                   | Stainless steel 316, Aluminium oxide, NBR |
| Media temperature                          | -2085°C                                   |
|  |   |
| Output                                     | 4-20 mA                                   |
| Output Overpressure protection             | 4-20 mA<br>5 bar                          |
