STEGO CONNECT

Stego IO Link Sensor System, SCE, SCM, SEN

07100.2-00
SHC 071, Stego Connect, Digital IO-Link Sensor Hub for up to 4 STEGO sensors

- Intelligent Condition Monitoring
- Temperature, Humidity, Pressure, Luminosity and Distance Sensors
- Compatible with Smart Sensor CSS 014
- IO-Link hubs
- Cloud based

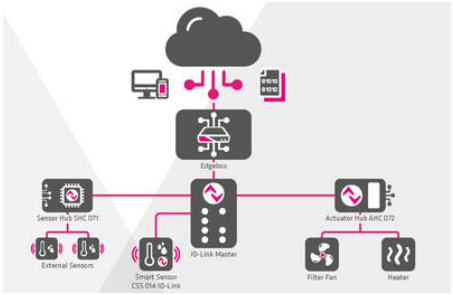

PRODUCT DESCRIPTION

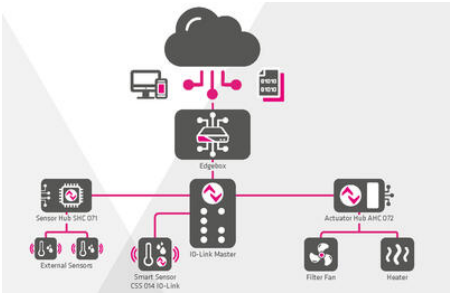

From thermal management to intelligent condition monitoring!

STEGO CONNECT allows the integration of analogue devices, for example heaters, filter fans, etc. into the digital world.
The system contains analogue and/or digital sensors for the collection and transfer of environmental data (Remote Monitoring) and the data is then used to control analogue devices to control the environment within an application. All this is done with the sensor and actuator hubs
The data is transmitted via IO-Link from the sensors to the cloud via the hubs and IO-Link Master. The data in the cloud (Big Data) serves as basis for the optimization of the overall application conditions and provides a dashboard for visual indication off the system.

TECHNICAL DATA

Approvals	CE, UKCA, RoHS
Colour	Light gray
Depth	116 mm
Height	35 mm
Humidity storage	< 90 % rF
Inrush max	16 A
IP class	IP40
Mounting	TS 35, Screw fixing
Operating humidity	< 90 % rF
Operational temperature	-40 °C to 70 °C
Power consumption	1.4 W
Protection class	III
Storage temperature	-40 °C to 85 °C
Weight	0.16 kg
Width	107 mm
