### PRODUCT DESCRIPTION

The Maxicard KMC is a clear, quick and simple solution for making cables that have already been terminated. The plastic halves snap together around the cable to hold the marker firmly on the cable.

The KMC 0 version is the most versatile, fitting cables from 0.14mm<sup>2</sup> to 1.0mm<sup>2</sup> cross-sections or cable diameter 0.9mm...2.6mm.

The KMC 1 version is designed for cables with a cross-section 0.75mm<sup>2</sup>...2.5mm<sup>2</sup> or cable diameter of 2.00mm...3.5mm.

They are available in three lengths - 12mm x 4.1mm, 21mm x 4.1mm and 30mm x 4.1mm.

OEM can custom print to your requirements, please contact for further information.
