## **VALCO - STANDARD LEVEL FLOAT SWITCH - S1 SERIES**

00.0002.3233.1 150mm length, Brass/ABS, Flanged, NC, DIN, Max 20

- 100 to 500 mm. length (step 50 mm.)
- Brass stem and connection, Spansil float
- Max working pressure up to 20 bar
- Max temperature 105°C
- Integrated temperature switch (on request)

senseca

## PRODUCT DESCRIPTION

Level controls with 1 electrical contact, reliable, compact and easy to install. Designed to offer a range of level switches to meet the request for a cheap monitoring of the level in small tanks. Rugged construction and low maintenance.

## **TECHNICAL DATA**

| Current                     | 0.5A/0.7A                      |
|-----------------------------|--------------------------------|
| Electrical connection       | DIN A 43650                    |
| Function                    | N/O & N/C                      |
| IP class                    | IP65                           |
| Length                      | 150 mm                         |
| Manufacturer part no.       | S1.B45.3.0150.O.FOPX.S1.L.1.I2 |
| Material of connection      | Brass                          |
| Material of float           | SPANSIL                        |
| Material of seals           | NBR                            |
| Mounting                    | Vertical                       |
| Pressure max                | 20 bar                         |
| Process connection          | Flange                         |
| Specific gravity            | 0.35                           |
| Temperature operational max | 105 °C                         |
|                             |                                |

Voltage 300Vac/350Vdc
