TECNOPLASTIC - SHELL COUNTERWEIGHT

CONSHEY000001
Two part counter weight, 7mm-9mm cable

- Easy installation
- No need to disconnect cable
- Recyclable
- 7mm - 9mm cable diameter

PRODUCT DESCRIPTION

The Shell counterweight for pendant float switches is a unique and time saving design that can be connected and placed onto the cable without the need to disconnect and feed the counterweight down the cable.

Being universal it is suitable for use with the Fox, Olympic, Supertec and Flotec switches and is also compatible with competitors' brands.

Manufactured from non-toxic materials its intended purpose is for permanent use in potable water but is also suitable for food industry applications.
