TECNOPLASTIC - BAMBOO

ACCGBAM115001
Bamboo 115mm For Fox/Olympic Floats

- 45° Activation angle
- Lengths available in 115mm and 145mm
- Suitable for Fox and Olympic floats only

PRODUCT DESCRIPTION

This accessory has been specially designed for the Olympic and Fox float with the activation angle of 45°. Constructed with materials highly resistant to mechanical stress, it's ideal for applications in rough waters as it prevents the entanglement of cable so the float switch can work properly. Suitable for narrow spaces, sewage, and industrial waters. It can be installed to tanks and Well walls using 2 screws (not supplied), or to the pump's pipes using the cable ties supplied.
