TECNOPLASTIC - ELECTRONIC LEVEL SWITCH - SNAKE

ESNH4G110N001
SNAKE H07 4G1, 10M, 230V, 1 Func

- Adjustable start/stop delay time
- Clean water / Waste water probes
- Up to 50°C
- IP68 Protection grade

PRODUCT DESCRIPTION

The level switch is designed to be used with level probes (sold separately) which can be connected to the unit using standard wire. This will allow the switch to be used in narrow spaces. With the use of a magnetic key which is supplied with the product you can adjust the start/stop delay time to your needs.
Suitable for level monitoring of clear, storm water, industrial and chemical waters.

TECHNICAL DATA
