

**SENDIX M3658AR SINGLETURN  
CANOPEN ENCODER**

M3658AR-CANOPEN

- Dimension Ø 36 mm
- Working temperature -40°C to +85°C
- Protection level IP66, IP67, IP69k
- Resolution maximum 14 bits ST

## PRODUCT DESCRIPTION

**TECHNICAL DATA**

|                             |                              |
|-----------------------------|------------------------------|
| Connection                  | M12                          |
| Housing diameter            | 36 mm                        |
| IP class                    | IP66, IP67, IP69K            |
| Mounting                    | Shoulder                     |
| Output                      | CANopen                      |
| Resolution ST               | Max: 14 bit, default: 14 bit |
| Sensor type                 | Absolute                     |
| Shaft diameter max          | 10 mm                        |
| Shaft diameter min          | 6 mm                         |
| Supply voltage dc max       | 30 V DC                      |
| Supply voltage dc min       | 10 V DC                      |
| Temperature operational max | 85 °C                        |
| Temperature operational min | -40 °C                       |
| Version                     | Singleturn                   |
