PRODUCT DESCRIPTION

Sendix F5858 / F5878 is a one-way fieldbus transducer with EtherNet / IP in robust design. Thanks to the construction of Safety-Lock™ as well as the fully cast housing, the sensor is able to handle even the more demanding applications where there are high demands on the sensor. The wide temperature range combined with the high enclosure class allows the sensor to be used outdoors as well as applications where large temperature changes occur. Sendix F5858 / F5878 comes with LED indication which facilitates diagnosis of the sensor.
