# TOOLS AND FILLER PROFILE

4H1000
Complete fitting tool kit for mounting of glass seals

- Various tools
- Filling profiles
- Black, red, silver, white

## PRODUCT DESCRIPTION

Filler profile for glass bezel molding and tools to cut and install our moldings.
The infill profiles are used together with the glass frame strip. Choose molding pairs with matching sizes to ensure proper fit.
The assembly set (A) contains everything you need for quick and safe assembly of the below glass frame moldings.
The mounting tool (B) used when mounting the infill profile.
The strip pliers (C) have clear visual markings every 15° to simplify cutting with the correct setup. The pliers have hardened blades, which means that it can cut regular moldings as well as moldings with steel wire clamps or fitted with steel clamps.
