

M12 FIELD WIREABLE CONNECTORS

7000-12461-0000000

M12 male 0° A-cod. IDC 3-pol., 0.25 - 0.5mm², 4 - 5,1mm

- 3, 4 and 5 pole connectors
- Straight or 90 degree
- Screw Terminals
- IP67 protection

PRODUCT DESCRIPTION

M12 field wireable connectors are versatile and reliable connection solutions used in a wide range of industrial applications, particularly in automation, control systems, and sensor technology. These connectors are designed for easy on-site assembly, allowing users to wire them directly to their desired cables, providing flexibility and customisation in the field. The M12 connectors are widely known for their compact, robust, and secure design, offering excellent resistance to vibrations, moisture, and other harsh environmental conditions commonly encountered in industrial settings. Typically used for sensor and actuator connections, M12 field wireable connectors support fast and secure connections, ensuring efficient power and signal transmission. Their adaptability, combined with their durability and ease of use, makes M12 field wireable connectors an essential choice for applications in factory automation, robotics, transportation, and process control industries.
