SLIP RING 2 SIGNAL / 3 POWER 25MM SHAFT

- Standard slipring
- Life span 50 million revolutions
- Easily accessible contacts
- IP64

PRODUCT DESCRIPTION

SR060E is a compact slip ring for up to 3 power and 2 data transmissions from a stationary to a rotating platform. The power and data transmission takes place securely via trailer contacts.

New innovative contact materials have a long service life and extremely little maintenance during operation. The round shape with smooth surfaces and a high level of protection allow easy cleaning.

Examples of applications: packaging machines, textile machines, robots and handling equipment, rotating tables, etc.
