PRODUCT DESCRIPTION

The Sony α7S III is a full-frame mirrorless camera designed for professional videographers and photographers. It features a 12.1 MP Exmor R CMOS sensor, BIONZ XR image processor, 4K 120p video recording, and advanced autofocus with 759 phase-detection points. The camera excels in low-light conditions with an ISO range expandable to 409600, and offers 10-bit 4:2:2 internal recording, making it ideal for high dynamic range content. Its robust build, combined with advanced stabilization, ensures versatility and precision in any shooting scenario.
