

## WEST - P6170, P8170, P4170 VALVE MOTOR CONTROLLER

P81702111002010

WEST 48x96 VALVE TC 3R 230V R/G

- Jumperless configuration
- Auto detected hardware
- Process and loop alarms
- Modbus comms

### PRODUCT DESCRIPTION

The new Plus Series VMD Controllers (6170, 8170, 4170) have been specifically designed for open loop valve motor drive applications and feature the improved Plus Series interface and greater field flexibility.

### TECHNICAL DATA

|                |                                          |
|----------------|------------------------------------------|
| Dimensions     | 48x96                                    |
| Input type     | Universal (TC, RTD, DC linear mA/mV)     |
| Output 1       | Relay                                    |
| Output 2       | Relay                                    |
| Output 3       | Relay                                    |
| Supply voltage | 100-240 V AC                             |
| Communication  | N/A                                      |
| Display colour | Red / green                              |
| Control type   | PID with TPSC (VMD), Manual, Alarm, Ramp |
| IP class front | IP66                                     |
| IP class       | IP20                                     |
