PRODUCT DESCRIPTION

Busbars and clamping yokes

The ZB clamping yoke can be used in conjunction with the 10 x 3 or 6 x 6 busbars in order to bring the neutral conductor or Earth (PE) conductor together at one point.

The SH and ES busbar supports are used to mount the busbar, either directly to the back plate or on the DIN rail.
With longer rails, these can be positioned between the clamping yokes to give extra support.

The clamping yokes are available with or without insulating caps, green/yellow as a PE connection, blue for Neutral and Black.

These caps stogether with the labelling tags help the connections wires to be clearly assigned.
