END PLATES FOR FRK PUSH IN TERMINALS

FAP, FAPSI, FAPT, FABDT, FAPIK

3486.2
FAPI 16/2A - Beige, End plate for FRKI 16/2A terminal

- for FRK, FSL, FSIK, FTRK, FRKI, FLSI, FNT, FDLIS, FIK Terminals

PRODUCT DESCRIPTION

End plates are usually inserted at the end of a rail of terminals or when a smaller terminal is used next to a larger one.
This ensures contact protection and the safety of fingers.
The outer dimensions of the end plates correspond to the dimensions of the terminal blocks.
Coloured end plates are often used to mark different power circuits or a change in voltage.
The use of end plates lengthens the airways and leakage paths, which in turn influences the rated voltage.

TECHNICAL DATA

GENERAL DATA

Colour	Beige

ADDITIONAL DATA

Tariff code	85369010
Country of origin	DE
Weight	3.4 g
Pack size	20
