

SUNGIL - ARTICULATED SHAFT COUPLING, SCJ

SCJA-25C

- Highly resistant to oil and chemicals
- Capable of absorbing great eccentricity
- 0.15 - 5 Nm, up to 6 000 rpm
- For 3mm to 15mm diameter shafts
- Supplied machined to shaft requirements

PRODUCT DESCRIPTION

The shaft coupling from Sungil is articulated meaning it is ideally suited to joining together two shafts with a large angular deviation.

It is robustly constructed with minimal play, giving a useful shaft coupling for regenerative positioning.

TECHNICAL DATA

| | |
|-----------------------|--------|
| Angle deviation | 3 ° |
| Parallel displacement | 0.5 mm |
| Torque max | 2 |
