GREISINGER PRESSURE MEASURING DEVICE WITH LOGGER

GMH 3151

GMH-3151
Pressure measuring with sensor connection, analog output, data logger

- Includes 1 sensor terminal, analog output and data logger without sensor
- 6-pol. screened Mini-DIN connector (s) for GMSD / MSD sensors
- Scope of supply: device, battery, test report, operating instructions
- 4½-digit display, sensors with higher resolution on request

PRODUCT DESCRIPTION

TECHNICAL DATA

Additional information	Measuring range and resolution dependent on probe used
Battery life	180 h
Dimensions	142 x 71 x 26 mm
Display	2 x 4½ digit LCD
Housing material	ABS plastic
Operating temperature	-25 … 50°C
Power	9 V Battery
Type	Manometer
Weight	150 g
