### PRODUCT DESCRIPTION

The Smart Buzzer from Auer Signal is a compact, high-performance multi-tone acoustic signal device with a 50 mm diameter and standardized M22 mounting – ideal for control cabinet and machine integration. As the acoustic complement to the Smart Dot 50 series, it integrates seamlessly into the Smart Signaling 50 platform.

With a sound output of > 90 dB LAFmax, modern piezo technology, and multiple selectable tones, it provides clear acoustic warning and status signals, even in loud industrial environments. Thanks to its high protection rating (IP66 / IP69 / IP69K / IP6K9K) and an operating temperature range from -40 °C to +70 °C, the Smart Buzzer is perfectly suited for demanding applications in mechanical engineering and industrial automation.
