ASCO - SENTRONIC - PROPORTIONAL VALVE 1/8"-1/4"

833-354J01006
Sentronic G1/8, 0-6bar, 0-10V

- Direct operating
- Rapid and accurate pressure regulation
- Large charge and exhaust capacity
- Analogue feedback value outlet

PRODUCT DESCRIPTION

A Sentronic proportional valve is an electrically controlled pressure regulator. Pressure regulation is proportional to an analogue control signal. The valve has internal feedback via an inbuilt pressure sensor, which means that the valve continuously adjusts itself to the setpoint value. It is direct operating, which gives a rapid response and makes the valve very suitable for dynamic applications.
