MODEL H24 3-WAY NORMALLY OPEN SOLENOID VALVE

H24
Part numbers coming soon, contact us for more information

- 1/8" and 1/4" NPT
- Grommet and 1/2" NPT conduit
- Precision stainless steel plunger
- 6000 PSI burst pressure

PRODUCT DESCRIPTION

The H24 is a three way normally open (3/2 NO) stainless steel solenoid valve (based on model H22). DC only. This valve allows the same media control as a standard three way normally open valve but at a much higher pressure rating 1000 PIS.
