### PRODUCT DESCRIPTION

SG4-Hand is a safety light curtain with a range of up to 19 metres.

This Type 4 light curtain maintains the highest safety level according to the latest safety standards EN ISO 13849-1 and EN 62061.

SG4-Hand curtain has built-in monitored reset, an input for monitoring of external contactors and two solid state safety outputs which are also electronically monitored.

This means that the SG4-Hand can work as a "standalone" unit if required and is not in need of any special control unit.
