NEO PLUGS

FW231306CC
Plug 2P+E 230V Blue

- Multiple variants (classic, quick-assembly, smart) for every application need.
- Quick-close housings that significantly reduce wiring time.
- Ergonomic design ensuring easy handling and connection.
- Reinforced strain relief preventing cable damage and failures.
- Impact-resistant, long-life body built for tough industrial use.

PRODUCT DESCRIPTION

Walther NEO plugs are engineered for secure, ergonomic and durable power connections in industrial and commercial environments. Available in multiple variants — including classic designs, fast-assembly versions and smart monitoring models — the NEO plug range covers everything from standard power connections to advanced diagnostic applications. Features such as quick-close housings, integrated strain relief and user-friendly wiring options help minimise installation time while maximising reliability. Built from tough, impact-resistant materials, NEO plugs deliver dependable performance even in harsh working conditions.
