

## LUMEL SM2 ANALOGUE INPUT CONVERTER

SM2031

SM2 Module, 4 x 0-4000 or Pt100 Input, 85-253V ac/dc

- Conversion of standard signals and temperature into RS485 / Modbus in 4 channels
- Programmable measurement characteristic
- Mathematical functions realized between channels and on channels
- 2 programmable OC outputs
- Full galvanic separation between inputs

### PRODUCT DESCRIPTION
