WE-10DI - Webeasy 10 x Digital input module, 24V ACDC

- Simple to configure & Install
- Open System - Modbus RTU
- Manual Override switch
- Multi-function analog inputs
- Wieland Connector & Screw Terminal Version

PRODUCT DESCRIPTION

A central controller (a DDC system or PLCcontroller) is at the heart of every building system. It centralizes the flow of data and information and controls the configuration of parameters. Such a system uses I/O components for connecting up the required sensors and actuators for the control functions.

CONTA-CLIP's Webeasy product line provides a variety of modules that meet these requirements for setting up a professional building automation system.
