

WEBEASY MODULES

Webeasy

16115.2

WE-FANCOIL - Webeasy Fancoil Control module, 4 x Digital inputs, 3 x Relay outputs with Wieland GST 18 connectors

- Simple to configure & Install
- Open System - Modbus RTU
- Manual Override switch
- Multi-function analog inputs
- Wieland Connector & Screw Terminal Version

PRODUCT DESCRIPTION

A central controller (a DDC system or PLC controller) is at the heart of every building system. It centralizes the flow of data and information and controls the configuration of parameters. Such a system uses I/O components for connecting up the required sensors and actuators for the control functions.

CONTA-CLIP's Webeasy product line provides a variety of modules that meet these requirements for setting up a professional building automation system.
