MODULAR IPC - MIC-75G20 I-MODULE, 1PCIEX16+1PCIEX4

MIC-75G20-10B1
MIC-75G20 i-module, 1PCIEX16+1PCIEX4

- Offering powerful GPU housing solution with NVIDIA 350W, 2.75-slot width, 334.6mm length GPU cards for new AI application
- Dual 24VDC power inputs with reliable power and OCP solution for up to 700W maximum peak power currency
- Intelligent power status indicating LED for system and GPU card independently. IP30 rating with fan filter, suitable for outdoor or industrial environment
- Flexible GPU card holders (R.O.C. Patent Pending), ensuring GPU card and Dual front removable 2.5" storage bay for easy swap
- Supports up to 60C Op. temp. with 350W GPU and 4-port PoE card installed with PWM fan control for intelligent thermal management
