

## MSD DRIVING WHEEL

Modular fully integrated drive wheel range  
specifically developed for mobile robots

MSD160-10-075-20GSL-N  
160mm MSD driving wheel without brake

- 150-200mm drive wheels with brake option
- 24-60Vdc supply with built in 16-bit encoder - 2500ppr
- Delivers up to 50Nm at wheel at 2.8m/s
- STO (SIL3) function with dynamic and emergency braking
- Compact in size and quiet running with elastic suspension

### PRODUCT DESCRIPTION

### TECHNICAL DATA

Communication	CANopen
Dimension (mm)	160
Nominal current	19 A
Nominal speed	2000 rpm
Nominal torque	3.6
Outer diameter	160 mm
Power	750 W
Ratio	10:1
Speed	1.7-2.1m/s
Supply voltage	24-60 V DC
