EASYMOTIONSTUDIO SOFTWARE

Programming softare for all iPOS controllers

P034.002.E001
EasyMotion Studio CD

- EasySetUp - for quick setup and tuning
- Motion Wizard - for easy programming of motion patterns
- Suitable for all Technosoft controllers

PRODUCT DESCRIPTION

The EasyMotion Studio software is both powerful and flexible. It contains tools for graphical monitoring of all parameters and variables in real time without the need to add extra code to the controller.

Programming libraries for communication from PC or PLC are available for C/C++, C#, Delphi, VB, Labview, and a variety of PLCs
